Project name:	Integrated Hydric System of the Chancay-Lambayeque Valley in the Lambayeque Region		
Type:	Unsolicited proposal Co-financed	Phase:	Planning and scheduling
Investment Amount (Without Taxes)	US\$ 618.80 millions	State:	In Portfolio
Contractual modality:	Concession contract	Years of Contract:	25 years
Competent Entity:	Regional Government Of Lambayeque		

### RESUME

The Integrated Hydric System of the Chancay-Lambayeque Valley is a megaproject aimed at irrigating 33,200 new hectares in Lambayeque through the construction of two dams (Montería and Sicán) and associated conveyance and distribution works. With an investment of US\$618.80 million and a concession period of 25 years, the Regional Government of Lambayeque leads this effort, which is currently in the planning phase, with the awarding expected in the first quarter of 2025.

The project will utilize the surplus water from the Chancay River to boost agro-export agriculture, generating over 50,000 jobs and enhancing the local economy. Additionally, it promotes collaboration between MIDAGRI, the Regional Government, and ProInversión to ensure its technical and financial viability, contributing to the social and economic growth of the region.
