

Choquequirao

SECTOR: Tourism and foreign affairs

PORTFOLIO: Tourism and Culture

Modality:	Greenfield		
Project name:	Improvement of Public Tourist Services at the Choquequirao Archaeological Park		
Type:	State Initiative Co-financed	Phase:	Transaction
Investment Amount (Without Taxes)	US\$ 261.00 millions	State:	In Portfolio
Contractual modality:	PPP contract	Years of Contract:	25 years
Competent Entity:	MINISTRY OF FOREIGN AFFAIRS AND TOURISM		

RESUME

The project aims to improve tourist services at the Choquequirao Archaeological Monument by installing a cable car system to facilitate access and enhance visitor experience. Aligned with MINCETUR's sustainability principles, this system will better capitalize on the tourism potential and integrate Choquequirao into the Cusco-Apurímac circuit.

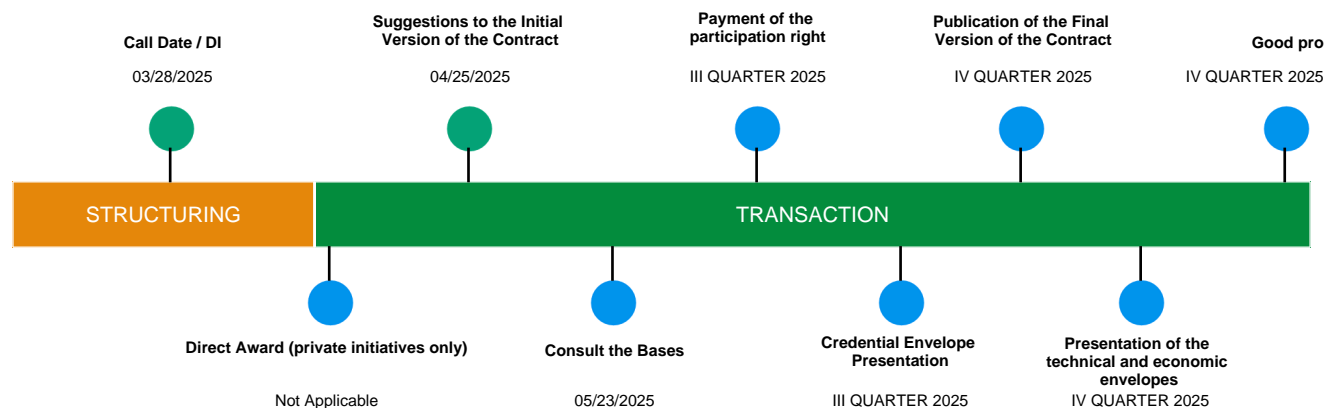

The project includes two zones: in the North Zone, a tourist road and two cable car sections (2.5 km and 3.8 km) will be built from Yanama to Abra Choquequirao. In the South Zone, a 4.2 km cable car will cross the Apurímac canyon, improving access from Kiufialla to Choquequirao.
