<b>Contractual modality:</b>	Concession contract	<b>Years of Contract:</b>	-
<b>Competent Entity:</b>	MINISTRY OF ENERGY AND MINES		

#### RESUME

The Integrated Gas Transportation System Project - Southern Zone of Peru (hereinafter, SITGAS Project) comprises a Natural Gas Transportation System (NG-TS) through pipelines, from the "Las Malvinas" Plant to users in the southern region of Peru: Cusco, Apurímac, Puno, Arequipa, Moquegua, and Tacna, as well as to the Southern Peru Energy Hub in Mollendo and Ilo. Additionally, it includes a Natural Gas Liquids Storage System (NGL-SS) with NGL tanks near the processing plant at Las Malvinas and the fractionation plant in Pisco, aimed at providing energy security to users of the National Interconnected Electric System (SEIN) and natural gas liquids (NGL).
