2 Enlaces de 500 kV

SECTOR: Energy

PORTFOLIO: Electricity

Modality:	Greenfield		
Project name:	500 kV Huánuco – Tocache – Celendín – Trujillo link, extensions and associated substations, and, 500 kV Link Celendín – Piura, extensions and associated substations		
Type:	State Initiative Self-financed	Phase:	Transaction
Investment Amount (Without Taxes)	US\$ 0.00 millions	State:	Awarded
Contractual modality:	Concession contract	Years of Contract:	30 years
Competent Entity:	MINISTRY OF ENERGY AND MINES		

RESUME

The objective of this Project is to reinforce the Northern zone of the country, providing reliability and greater transfer capacity between the Central and Northern zones. Likewise, it will reduce the risk of voltage collapse in the event of far-reaching contingencies in the area. These transmission lines are part of the second longitudinal axis of the National Power Grid's 500 kV transmission scheme, which will connect the Central and Northern zones.
