Investment Amount (Without Taxes)	US\$ 0.00 millions	State:	Excluded
Contractual modality:	Concession contract	Years of Contract:	-
Competent Entity:	MINISTRY OF FOREIGN AFFAIRS AND TOURISM		

RESUME

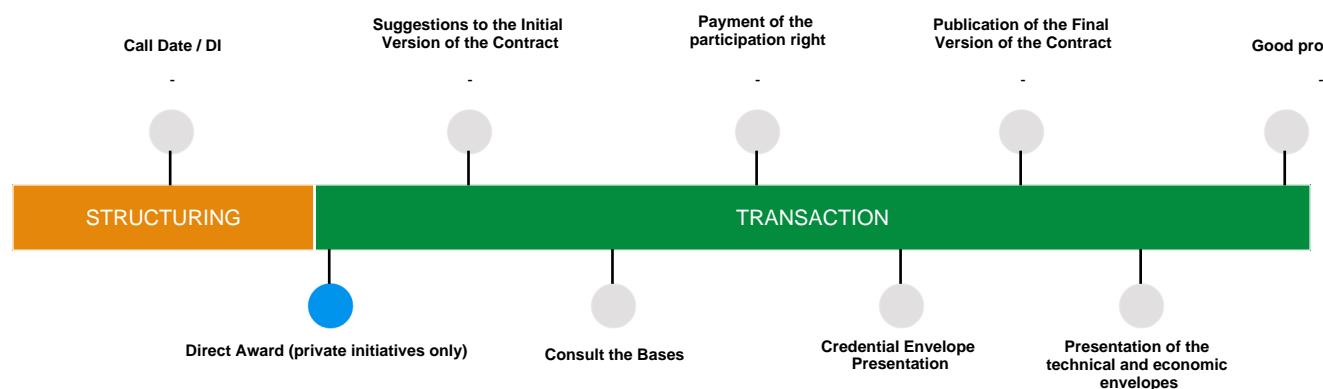

This project is presented as a Public-Private Partnership (PPP) focused on technological innovation, aiming to install, launch, and operate a Port Community System (PCS) in all public ports of Peru, excluding the port of Callao. The PCS will be responsible for managing, automating, and optimizing logistics processes in regional port terminals nationwide, enhancing efficiency and coordination in port operations. This system represents a significant advancement in the modernization of the port logistics sector, promoting competitiveness and facilitating trade in the country.
