RESUME

This group consists of 4 projects:

- New Substation Palca 220 kV, 220 kV Palca-La Pascana Transmission Line, expansions and associated Substations (Arequipa) (ITC Project).
- 220 kV Planicie - Industriales Link, expansion to a 3rd circuit. (ITC Project).
- 138 kV Abancay Nueva - Andahuaylas Link, expansions and associated substations (ITC Project).
- 138 kV San Rafael - Ananea Branch Link, expansions and associated substations (ITC Project).

The projects aim to improve the security of electrical transmission in the city of Arequipa and address the capacity deficit of 220/138 kV transformation in the Arequipa electrical system. Self-financed state initiative modality for a term of 30 years (plus construction period).
